

Corrections to “Vibrational Cooling in Oligomeric Viologens of Different Sizes and Topologies”

Mengdi Liu, Takehiro Kawauchi,^{ID} Tomokazu Iyoda, and Piotr Piotrowiak*^{ID}

J. Phys. Chem. B 2019, 123 (8), pp 1847–1854. DOI: 10.1021/acs.jpcb.8b12165

The structures of oligomeric viologens in Figure 1 of the original paper are incorrect. Specifically, they omit the $-\text{CH}_2-$ groups of the bridging moieties. The correct structures are shown in Figure 1 below. The same error affected the TOC illustration, the correct form of which is shown in Figure 2. Importantly, all reported MD and MO calculations were carried out on the correct structures shown below. As a result, the substance of the reported findings, including the agreement between experimental results and the simulations, remains unchanged.

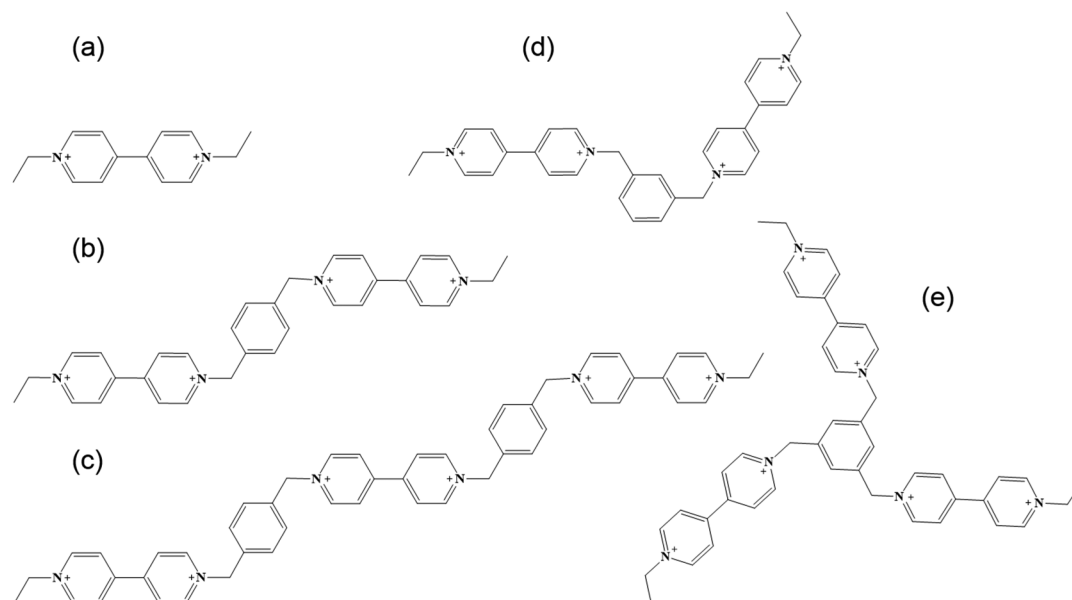

Figure 1. Topology of oligoviologens: (a) monomer; (b) para dimer; (c) linear trimer; (d) meta dimer; (e) star trimer.

Figure 2. TOC illustration showing the correct structure of the linear trimer.
